

Grandora Aquatics 2011 Retail Price List

Boreal Aquatics.

Boreal aquatics are native wetland and aquatic plants that grow naturally in the Western Canadian Boreal forest and parkland. Specimens are collected from the wild, propagated in an aquatic nursery and selected for vigor to ensure quality for pond lovers and water gardeners. Boreal aquatics are ideal for growing in prairie water features.

Plant care instructions are available at [Boreal Aquatics](#)
